80	Household: I am segregating the compostable and non-compostable waste at at home every minute by keeping 2 dust bins one for dry and another one for wet waste. The compostable waste is being composted by myslef at home. The dry / non-compostable waste is given to the old paper mart/ Gujri shop. I have two small compost bins in the back yard which take care of my compostable waste and convert it to compost which in turn used for flower/vegetable pots.
